PREVIEW

Future Vision Development is an organization,

dedicated to providing high quality services with a desire to streak ahead in all its missions in the fields of **Insurance Liability claims investigation, Risk Management, Valuation, Marine Services and Motor/Non Motor handling**. Insurance is quite complex to its understanding, with the various services offered, it needs a specific analysis to tailor assessments.

A specialist advice and guidance of professional independent loss adjusters can do just that.

They offer a completely comprehensive service according to the requirements of the Insurance companies, with respect to specific policies to adjust and assess losses of customers & clients.

Right, from investigation to analysis and reporting, Loss Adjusting is all about understanding the core relationship between Insurance services and the nature of loss, by maintaining a will of good faith between Insurers, Customers and the legal documents that binds us all together. It is a belief that liability claims investigation and handling should be personal and professional, which means the clients are allocated very precisely for adequate attention and that is where we need people with experience handling and sorting out the issues so that there is no mess up or headaches in between.

THIS IS WHERE WE STEP IN..

OUR MISSION

A core start-up team unit with ample experience within this Insurance/Loss Adjusting industry was formed under label **Future Vision Development SPC** with the sole aim and purpose of mitigating Insurance Loss Adjusting, Claim Solving, Marine Cargo/Transport Assessments, Motor Vehicle Claims, Standard Movement procedure by providing independent full-fledged analysis report. based on Insurance Policies specified and tailored to specific claims, loss assessment for Government and Private Firms as well as managing disputes.

We provide bespoke, cost-effective claims handling services with technical excellence, transparency and integrity at the core

Our services include: -

- Insurance Claims regarding damages & catastrophe
- Loss adjusting for Claims.
- Valuation of Property
- Risk Management & Assessment.
- Repair Assessors – Agency and Non-Agency
- Complex Cases/Dispute Handling
- Agency Repair Monitoring and Cost Control
- Marine Cargo Assessment.
- Marine Transport/Quality Assurance Check Reports

HOW CAN WE HELP YOU

Without doubt, you are facing an incredibly difficult task ahead, but with Future Vision Development SPC, on your side you can be confident your claim is in the hands of the most professional Loss Assessors in this industry.

Why choose us:

A single point of contact. As your interpreter, you will never have to go through a call center. You will have the direct contact details of your Adjusters and you can reach us instantly to receive the details of your claims, follow up and updated feedback.

Resolving your claim as quickly as possible with a coordinated team led by us, the claim will run smoothly and efficiently and you will receive a framework schedule of :-

First Analysis Primary Report in the first 3 Working Days of the claim inception.

Second Update Report and Budgetary Assessment Reports over the course as per requirement and

Final Claim Analysis Report, the instant, the purported claim has been dealt with.

Having experience is key to run successfully and efficiently in a market that is dealing with Insurance companies and Loss Adjusters. The experience we have acquired over the years working with eminent teams have given us the effective guidance to reach out in the safest & most economic manner that will attract proper closure of claims and generate professional reports.

Being equally represented. As an Insurer or an Interpreter, your views are most important to the standardization and negotiation of a claim, Here at Future Vision Development, We prioritize the ample feedback, list of requirements, comments from your end, which shall also our cutting edge to finalize and smoothly deliver the result without any legal complications from any customer.

Keeping you in control. We have staff support that can deliver linguistic support from Local Arabic language and mitigate through other commonly spoken languages including English, Hindi, Urdu and even peninsular Arabic. Dealing with clients are indeed a tough process and therefore we choose the best effective method to deal with them ensuring you as an Interpreter or Insurer are made aware. Some like to manage each step with their Loss Adjusters, others prefer to let their Adjusters take the reign completely - the choice is yours, and rest assured we shall not disappoint.

Significant reduction in stress. It is easy to underestimate the time and energy that goes into running a claim. Having an expert guide you and the client through the process will reduce this stress and allow you to focus on your day-to-day life.
